

PILLMETHOD

INTERNATIONAL

Don Daniel is the founder of *The PILL Method® International* and author of the Amazon #1 Best Seller, *The PILL Method: A Better Way To Eliminate Debt*. A former Firefighter and EMT, Don uncovered what he calls “**Financial Violence**”—the hidden burden of interest embedded in amortized loans.

His breakthrough message is both practical and spiritual: **debt isn’t the real problem—it’s the interest cost**. Even at low rates, front-loaded amortization traps borrowers into paying two to three times the cost of their loans. Don teaches that true financial freedom doesn’t come from paying debt off fast, but from paying the **least amount of interest mathematically possible**—a strategy that aligns with biblical stewardship by freeing resources for greater purpose and generosity.

Through *The PILL Method®*—which stands for **Prepayment of Principal, Isolation of Principal Amounts, Leverage, and Liquidity**—Don uses AI-powered algorithms to reveal exactly how much to pay, when to pay, and which loan to target. This precision helps families, churches, and real estate investors cancel up to 75% of scheduled interest while maintaining liquidity for wealth-building. As an ordained elder and educator, Don connects financial wisdom with biblical principles, empowering thousands to break free from financial bondage and step into lives of abundance and impact. His mission finds its voice in a simple rallying cry: “**Cancel My Interest**”—because every dollar freed from interest is a dollar available for greater purpose, generosity, and lasting impact.
